Superintendent's Message

August 23, 2021

Dear Citizens, Friends, and Neighbors:

Despite many challenges with the COVID-19 pandemic, the 2020-2021 school year included many wonderful accomplishments by the students and staff in the School District of the Menomonie Area. Other than a brief closure at Menomonie High School last fall, SDMA schools stayed open for in-person instruction and many student activities.

During the 2021-2022 school year, the school district will continue to focus on the core values as the faculty, staff, and administrative team work to achieve our mission of preparing ALL students to become lifelong learners, caring individuals, and responsible citizens. The productive engagement of community partners continues to be a priority in the SDMA as work continues toward a shared vision, while being mindful of the finances of our organization. This year, the school district leadership team, faculty, and staff will be working to refocus efforts on the goals set forth by the district's strategic plan focused on Career, College, & Life Ready Graduates; Student Social and Emotional Wellness; Our Talented Workforce; Parent and Community Partnerships; and Facilities & Operations.

While the school district continues to have success employing a terrific staff that is extremely competent, caring, and committed to the success of our children, small candidate pools make it more important than ever to recruit and retain highly qualified teachers and staff members. The SDMA will be focusing much of this year's inservice and professional development time toward moving past the pandemic and rebuilding the climate and culture in our schools.

As with all areas in the SDMA, school officials continue to emphasize responsible decision-making and planning for the future when considering school district finances. District leaders will work to once again balance the budget, while prioritizing services directly impacting the classroom.

Under the school board's direction, the district continues to update a 30-year capital improvement plan for keeping our school district facilities and systems functioning in good repair without relying on the hope of a future referendum. For the fifth year in a row, the school district's self-insured medical insurance fund continues to maintain an adequate balance without needing to increase premiums.

Preliminary budget figures demonstrate a planned deficit for the 2021-2022 budget, but it can be expected that changes will be made during the year to minimize any shortfalls. Both revenue and general fund expenditures are set to increase slightly in the 2021-2022 budget. The tax levy for school district operations, debt service, and community service is projected to be \$17,491,612, a decrease of 1.30% compared to a tax levy of \$17,722,147 for 2020-2021. State revenues are projected to account for 57% of the total budget in 2021-2022, which is a small decrease over the previous year. The projected tax rate for 2021-2022 is \$8.37 per \$1,000 of equalized value, which would be a decrease of \$0.11 from the actual mill rate of \$8.48 a year ago. At this time, an expected increase in district property values has not been factored in, so if reported property values continue to trend upward, it is likely that the mill rate will actually decrease. It should be noted, however, that individual tax rates will vary for each property owner depending upon where one lives and the full or partial values of the assessment.

While successfully managing operations and improving the fiscal health of our school district continues to be important, our greatest priority is the success of our children. Our school district continues to enjoy many great examples of success in the classroom, in athletics, and in many co-curricular activities. Much of this success can be directly attributed to our wonderful staff and the partnerships that our school district enjoys with parents, families, local businesses, UW-Stout, and our community. Graduates continue to leave MHS well prepared for opportunities in the workforce, military, or other institutions of higher education, and many of our school district alumni return to call the Menomonie area their home. It truly is a wonderful time to be a Menomonie Mustang!

Welcome to the Annual Meeting

Welcome to the Annual Meeting of the School District of the Menomonie Area. The annual meeting plays a special role in the governance of the school district. Electors in the district have special powers reserved to them as a body at the Annual Meeting. State statutes set forth the basic requirements for holding the Annual Meeting and outline the powers of the electors at the Annual Meeting. (Wisconsin Statutes 120.08, 120.09, 120.10, 120.11)

The Annual Meeting provides district residents with an opportunity to focus their attention and comments on the operation of the school district. Electors should also note that the Board of Education, at each regularly scheduled meeting, has a place on the agenda for community communications. One need not wait, however, until the Annual Meeting or a regular meeting to discuss matters with the Board of Education. Individual board members are always available for discussions.

Even though specific powers are granted to the Annual Meeting, the powers of the Annual Meeting for action are also limited. The school board is charged by the statute with the care, control, and management of the property and affairs of the school district. The electors, for example, do not have the power at the budget hearing to amend the budget as proposed, nor to approve or disapprove such budget. That responsibility remains with the school board.

The Board of Education and school administration have outlined the necessary action at the Annual Meeting required by statute. Other matters may come up for action under new business and votes may be taken; however, the action is advisory only upon the Board of Education. As elected members from the electorate, the board hears points of view prior to implementing or changing school policy; however, they have the final responsibility to operate and manage the schools.

SPECIAL PROJECT FUNDS (FUNDS 21, 27)

Fund 21 is used to account for gifts and donations from private parties.

Fund 27 is used to account for special education and related services funded wholly or in part with state or federal special education aid.

DEBT SERVICE FUND (FUNDS 38, 39)

These funds are used for recording transactions related to repayment of promissory notes, bonds, and state trust fund loans.

CAPITAL PROJECTS FUND (FUND 40)

These funds are used to report capital project fund activities, including referenda activity.

FOOD SERVICE FUND (FUND 50)

All revenues and expenditures related to pupil food service activities are recorded in this fund.

COMMUNITY SERVICE FUND (FUND 80)

This fund is used to account for activities such as community recreation programs and athletic programs and services outside regular curricular and extracurricular programs which have the primary function of serving the community. Access to these programs is not limited to pupils enrolled in the district's educational programs.

PACKAGE AND COOPERATIVE PROGRAM FUND (FUND 99)

This fund is used for cooperative instruction funds (does not include CESA packaged services by a host district).

Explanation of Fund Accounting

Budget Reporting

Accounts used in school district budgeting and financial reporting are designated by the Department of Public Instruction. A uniform accounting system is important for the facilitation of reporting, auditing, data processing, inter-district comparisons, and financial accounting for cooperative programs. A complete list of allowable account codes and account code explanations are available for review on the website at:

https://dpi.wi.gov/sites/default/files/imce/sfs/pdf/WUFAR_Revision_21-22.1.pdf.

Fund Accounting

Financial administration requires that each transaction be identified for administrative and accounting purposes. The first identification is by fund which is an independent fiscal and accounting entity, requiring its own set of books, in accordance with special regulations, restrictions, and limitations that earmark each fund for a specific activity or for attaining certain objectives. Each fund must be so accounted for that the identity of its resources and obligations and its revenues and expenditures is continually maintained.

All funds used by Wisconsin school districts must be classified into one of nine fund types. The major fund types are the General Fund, Special Projects Fund, Debt Service Fund, Capital Projects Fund, Food Service Fund, Agency (Pupil Activity) Fund, Fiduciary Fund, Community Service Fund, and Package and Cooperative Program Fund.

Basis of Accounting

The basis of accounting refers to the point in time when revenues, expenditures or expenses and the related assets and liabilities are recognized in the accounts and reported in the financial statements. In other words, the basis of accounting determines the timing with which the accounting system recognizes transactions.

Governmental funds, expendable trust funds, and agency funds use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available (susceptible to accrual). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. State general and categorical aids, federal impact aid, and other entitlements are recognized as revenue at the time for receipt or earlier if the susceptible to accrual criteria are met. Expenditure-driven programs currently reimbursable are recognized as revenue when the qualifying expenditures have been incurred.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Employee services and payroll-related costs (employee health, life, disability insurance, FICA, Medicare, Wisconsin Retirement System contributions, annuities) other than compensated absences, termination, and other post-employment benefits are recognized in the fiscal period when incurred.

The following tables provide actual audited results for 2019-20 school year, unaudited results for 2020-21, and proposed budget for 2021-22. Actual revenue and expenditures for 2020-21 will be provided after closing entries and the audit is complete. The budget reported for 2021-22 was approved by the Board of Education on June 14, 2021.

TAX LEVY EXPLANATION

The school district tax levy is made up of several components. These include:

- Amount of operational dollars needed-General Fund , Capital Projects, Community Service levies
- Amount of debt service tax dollars needed-Debt Service Fund levy
- Equalized value of property in the school district
- Mill (tax) rate

The tax levy is the total amount of property taxes levied or assessed to municipalities in our school district to fund school operations. The maximum tax levy amount, other than referendum-approved long-term debt or long-term debt incurred prior to 1993, is determined through the state's revenue cap (limit) formula. Taxpayer approval, through the referendum process, is required if a school district wants to exceed the revenue limit. The tax levy approved at the Annual Meeting will be adjusted by the Board of Education in October when the Department of Public Instruction (DPI) has certified the district's state equalization aid amount for the 2020-2021 fiscal year which is received in 2021-2022.

Equalized valuation is the fair market value of all properties within a school district as determined by the Wisconsin Department of Revenue. The Wisconsin Department of Revenue uses property sales information to determine a municipality's equalized "fair market" valuation. This information is reported to the school district in October of each year.

The school district distributes the certified (approved) tax levy among the municipalities according to the proportion of equalized value each municipality has in comparison to the total equalized value of the school district. Each municipal treasurer distributes this levy among the various residents based on the assessed value of the property within the municipality.

Equalized valuation plays a very important role in determining the school mill (tax) rate. For purposes of budget projections, the school district must estimate the equalized value (\$2,090,339,056) which is used for the 2021-22 fiscal mill rate estimate reflecting a 1.30% decrease. In October, the actual certified equalized values of all municipalities within the school district are reported by the Department of Revenue. The district then calculates the actual mill (tax) rate per thousand dollars of equalized valuation. Property values decreased in the last preceding fiscal year.

To calculate the school mill (tax) rate, the district uses the tax levy certified (approved) by the School Board in October and divides that amount by the total equalized value of the school district. The mill rate is defined as the rate one thousand dollars of equalized valuation will raise in property taxes. Property owners in a municipality having more than one school district, fire district, or other governmental entity may find that mill rates vary within the municipality. Property owners may realize different changes (typically increases) in their property assessments depending upon conditions within their community and surrounding communities.

The Board is proposing a total tax levy of \$17,491,612 to fund the 2021-22 budget. To determine the rate per thousand, the district divides \$17,491,612 by the estimated equalized value of the district, \$2,090,339,056. This produces a projected mill (tax) rate of \$8.37. Since the district does not receive the official (certified) equalized valuation until October 1, 2021, the property taxpayer in the School District of the Menomonie Area may realize a change in the estimated 2021-22 mill rate. For example, if the tax levy remains the same as approved, but the total equalized valuation decreases from the estimate used, the mill rate would increase. If the total equalized valuation increases from the estimate used, the mill rate would decrease. The Board is required to make any adjustments, if needed, to the levy on or before November 1, 2021. The final determination of state aid will also modify the estimated mill rate.
